

INSPECTION OF SHIP HOLD, TANKS, CONTAINERS, WAGONS AND TRUCKS

Description:

It is said that *prevention is better than cure*. It may occur, and often happens that during transportation, goods and products possibly get damaged or contaminated. It is thus primordial that the container / receptacle be inspected before receiving the goods and products, to ensure a safely delivery.

Goals :

Preserve the integrity of goods and products during loading in order to prevent contamination and transport.

Target:

Exporters, Importers, Industrialists and Buyers / Sellers in general.

How:

It is necessary to control the equipment that will transport the goods and products

- Inspection prior loading
- Previous cargo
- Odor and cleanliness
- Sealing
- Avoid possible contamination
- Presence of insects
- Good aeration and ventilation
- Temperature
- Permanent presence during stuffing
- Sealing of the containers, wagons, ship hold, tanks ...

Benefits / Advantages:

- Inspections are carried out by a neutral, independent and experienced Party
- In the event of a complaint you can assert your rights

Duration / Pricing: It all depends on the duration of the mandate and the place where the work takes place
